

# WHAT IS HALAL?

Animals slaughtered according to Islamic sharia law must be fully conscious while their throat is slit. This is happening in Australia every day. Thousand of animals die in fear and agony. A cow can take up to 20 minutes to die using this method.

## Why are we funding animal cruelty?

Every time you go shopping you are paying a fee to islam.

What did the moslems eat before halal certification of almost all our food started in the 1960's?

They ate the same food as us! They only had to bless it to make it 'halal'.

**Halal certification is a money making scam.**

80% of our slaughterhouses are now killing the Islamic halal way. Soon, it will be 100%. Only moslems are employed, so Australians are losing jobs as a result.

Once started, halal affects the entire food chain. The trucks shipping our food must be certified halal. The packaging, the processing plants, the warehouses, the shops, must all be certified halal. And we pay this religious fee each time.

## You can stop the halal scam!

**When you go shopping, refuse to buy halal certified products**

**Get active:** Become a **Street Representative**. Put flyers like this in mail boxes to help educate your neighbours. Learn more and register here:
